Leading the way in PMP training

PMI Project Management Professional (PMP®) Examination Preparation Programme

„In today's complex project environment success and the achievement of project results can only be achieved if project managers, team leaders and project support staff acquire relevant knowledge, best practice applications and professional certification in the discipline of project management. The intent of this programme is to ensure that participants are equipped to acquire the relevant knowledge, best practice applications and professional certification in project management from the Project Management Institute (PMI) which is the globally recognized project management body.“

PROGRAMME OBJECTIVES

The objectives of this programme are to ensure that participants:

1. Undertake a comprehensive review of all the project management knowledge areas and process groups in accordance with the 4th Edition PMI/PMBOK.
2. Develop strategies for passing the PMI/PMP® examination.
3. Take essential practice exams to gain the confidence necessary to undertake the PMI/PMP® examination.
